

CSTS visits

Dear Members

First, I must apologise to those of you who have replied to my previous note and I haven't responded to you individually, which I aim to do.

It is proving difficult to find a date for Kew which their staff can accommodate, they are now suggesting a date in September, but haven't given an exact date yet, I have been waiting to hear from them but thought I should update you all.

This makes the spring/summer rather unbalanced, with nothing until June, then two visits. If anyone can suggest something for April or May please email me, cajbs@hotmail.co.uk

The programme is:

16th June – A417 Missing link

26th June – Camden BRI

Sept – Kew Herbarium

The A417 and Camden don't involve cost and will be by car, but both need to know numbers, there are detailed directions for A417, and I'm sure there will be directions and more details for Camden, which will be sent to those who want to come.

Now, I'm sorry I'm asking you to repeat what some have already done, **please will you email me, cajbs@hotmail.co.uk rather than reply to the CSTS where the email has come from, saying yes please to:**

- **A417 Missing link**
- **Camden BRI**

I will ask again when I have a date for Kew.

Best wishes

Chris Stevens and Stephanie North
